

# Data recorder

OEG's BlueManta data recorder is a highly accurate field pressure calibrator that records and displays data graphically, on a backlit display. It offers precision data recording, monitoring, and easy report generation for testing pressure and temperature. Compact, robust, and versatile, it's an essential tool for reliable field operation.

## Key features

- Examine live data on display
- Compare pressure and temperature on one screen for tests
- Observe repeatability and high speed performance of pressure
- Safety valves
- Monitor and download live data to PC
- Export reports to Microsoft Excel

Please check exact specifications with your local representative when ordering.

### Specifications

<b>Display</b>	255 x 160 pixel backlit graphical display
<b>Operating Temperature</b>	-20°C to 50°C (4°F to 122°F)
<b>Humidity</b>	<95% Relative, non-condensing
<b>IP Rating</b>	IP67 (1m immersion for 30 minutes)
<b>Electrical Connection</b>	Mini-USB B, <100mA under USB power
<b>Mounting</b>	Four M4 x 0.7 inserts, 8mm deep
<b>Enclosure</b>	Impact-resistant, compatible with industrial fluids
<b>Weight</b>	680g (1.5 lbs), including modules and batteries
