Filter crushers

Key features

Designed to add-on to any **ENVIROPAK** model compactor

Removes 95% of free flowing oil

Reduce waste volume offloaded while increasing storage capacity

Door safety switch prevents operation whilst open

Please check exact specifications with your local representative when ordering.

OEG's **ENVIROPAK** filter crushers are designed for simple, safe, and reliable operation by attaching to your compactor and utilising its hydraulic system. The units can easily crush filters from 36" tall to one inch. All filter crushers meet and exceeds international MARPOL 73/78 Annex V.
