

Regulated waste bags

The **ENVIROPAK** regulated waste bag is designed to contain regulated waste from offshore vessels for the required 2-year decontamination period, as well as hazardous material waste from various on-shore operations. Made from woven polypropylene coated fabric with a 150 micron inner liner, it ensures durability and effective containment. Featuring self-raising stand-alone technology, this self-supporting FIBC does not require a stand or bag holder, providing ease of use and stability.
