

nVision PTU

Pump units

OEG's BlueManta portable pressure test units are available in various sizes and pressure ratings. They can be supplied as a standalone PTU, with a circular chart recorder, or a digital recording device incorporated. The pump is an air-driven liquid unit capable of handling various pressures, volumes, and fluids. All units are supplied piped and mounted in a boxed section stainless steel frame with colour coded mimic panel. Various items of pressure test equipment designed for use with the pump units can also be supplied such as high pressure hoses and manifolds.

Key features

- All stainless steel
- Air controls of air filter / regulator / gauge / on-off control valve
- NPT or Autoclave outlet complete with gauge and manually adjusted pressure relief valve
- Haskel MS-220 pump
- nVision data recorder

Please check exact specifications with your local representative when ordering.
