

Furioso

Key benefits

- Maximum speed of 25 knots
- Large fuel capacity of 34,000 litres for less frequent re-fuelling
- Seating for 24 passengers for high-speed transfer
- Deck area of 90m² with high Specification crane

Furioso is a modern crew transfer vessel (CTV) designed for efficient and reliable operations in offshore wind farms.

Built with aluminium for lightweight construction and high strength, the Furioso boasts impressive dimensions, including a length of 27.2 meters, a beam of 9.4 meters, and a maximum draft of 1.8 meters.

Its spacious forward deck area of 90 square meters provides ample room for equipment and personnel, while its high-speed capabilities of up to 25 knots allow for rapid transfers to and from offshore wind turbines. Powered by four Volvo Penta D13 700hp main engines and propelled by four Volvo IPS900 units, the Furioso offers exceptional manoeuvrability and fuel efficiency.

The vessel is equipped with two Sole 45GTC 44kVA generators to ensure reliable power supply, and a Fassi WCSQ1269-01 deck crane for handling equipment and cargo. With a fuel capacity of 34,000 litres and a range of 1,950 nautical miles, the Furioso can operate for extended periods without refuelling.
